

The ECSSA bargaining committee met with the board during the spring. We scheduled more bargaining sessions in August in the hopes of coming to an agreement.

Both sides have worked and come to tentative agreements on many issues, but at our last meeting it was clear that we were at an impasse on a few key issues.

The district's team will be meeting with their stakeholders. ECSSA is waiting for their response and is very hopeful an agreement will be reached soon. Depending their response, ECSSA may hold a meeting to get direction from our members.

ECSSA will be in communication with our members once we hear from back from the district
